The giraffe

The giraffe is the tallest animal. His head is about five meters above the ground. It has its good and bad sides. The giraffe can eat leaves from high trees because he has a long neck and a strong tongue. But it's difficult for the giraffe to eat the grass. When the giraffe drinks water, lions and leopards often hide in the tall grass ready to catch him. It is very bad for the giraffe, because he can't raise his head quickly and run away. The giraffe can live for months without water. He gets most of the water from what he eats. Also, because his heads is so far from the ground, a giraffe can see danger and can quickly walk away or run away.

In 1586 Shakespeare went to London, where he worked in the theatre for some years before he began to write his own plays.

2. Shakespeare soon became well-known in London literary circles. Every play that he wrote was good news to the people of the capital. Queen Elizabeth I liked Shakespeare's plays, and the actors were often invited to play before the Queen and later before the King James- a great honor in those days. By the end of the 16th century Shakespeare and his friends built their own theatre –the famous Globe Theatre.

3. But Shakespeare had many difficulties in his life. Less talented writers, whose plays were worse than his, often quarreled with Shakespeare and attacked him, the actors in his own theatre sometimes turned against him.
